### DETAILED ACTION

1. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on 6/21/05 has been entered.

2. Applicant's amendments filed on 6/21/05 and 8/11/05 have been entered.

Claims 1 and 20-23 have been amended.

Claims 55-63 are added.

Claims 1, 3, 5-9, 11-26, 28, 29, 42-48 and 55-63 are pending and are under consideration.

3. Applicant's IDS filed on 6/21/05 is acknowledged.

4. Applicants' request to rejoin the species (claims 2, 4, 27 and 30) upon allowance of generic claims is acknowledged.

5. The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

6. Claims 57-63 are rejected under 35 U.S.C. 112, first paragraph, as containing subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention. This is a New Matter rejection for the following reasons:

The specification as filed does not provide a written description or set forth the metes and bounds of the phrase "cell line" in claims 57-63. The specification does not provide any guidance or direction for the above-mentioned phrases as they are currently recited.

Art Unit: 1644

The specification (p.59 [0174]) provides a written support for host cells. The "cell line" disclosed in [234] and [0172] as applicants pointed out is limited to human embryonic kidney cell line 293 and hepatoma cell line, respectively. The cell line encompasses primary cell lines that may not be suitable for comprising nucleic acid molecule as claimed. The instant claims now recite limitations which were not clearly disclosed in the specification as-filed, and now change the scope of the instant disclosure as-filed. Such limitations recited in the present claims, which did not appear in the specification, as filed, introduce new concepts and violate the description requirement of the first paragraph of 35 U.S.C. 112.

Applicant is required to cancel the new matter in the response to this Office Action.

7. Claims 1, 3, 5-9, 11-26, 28, 29, 42-48, 55 and 56 are allowable.
